## *Happy Holidays To One and All*

*The annual pot luck supper and fun shoot is over for another year.*

*Both segments were well attended , and a good time was had by everyone.*

*A very big round of applause for the people in the kitchen for a lovely meal well presented, all the people who brought there special dishes for us all to try out. The people responsible for the many door prizes, there was a huge selection to wonderful stuff to pick from. Everyone got to go 2 times and not to forget the crew who put on the fun shoot. I think the new target selection was well accepted.*

## **First they are coming for the guns of seniors in Toronto\***

The Chief Firearms Office of Ontario is piloting an initiative that involves harassing older firearms owners, in Toronto, who own more than 10 firearms, including a restricted or prohibited firearm(s). These firearms owners will be required to have their homes searched by a firearms officer. Each owner has been provided a pamphlet from the Canadian Firearms Centre setting out the requirements for safe storage and display. The inspector will also be providing the firearms owners with information, from the Canadian Firearms Centre, on how to arrange for the handling of their firearms in the event of death or incapacity. The inspector will give a receipt for any firearms that he seizes during his search.

The Firearms Act provides for a firearms officer the authority to conduct inspections in certain circumstances, including where the inspector believes on reasonable grounds that there is a firearms collection, a prohibited firearm or more than 10 firearms. Where the inspection involves a dwelling house, the Firearms Act requires the inspector provide reasonable notice and obtain the occupant's consent. (If consent is not given, then a search warrant is obtained to permit the search to be conducted). The Firearms Act also requires the owner or person in charge of a place to give the inspector reasonable assistance to enable him to carry out the inspection.

There is no doubt that the inspector will occasionally find infringements of his understanding of the firearms act. And so the confiscations begin.....based on the excuse that seniors probably can't store their firearms safely. Interestingly, the only seniors who will be 'inspected' are those who registered their firearms in an effort to obey the law. It is only a matter of time before this nonsense spreads to the rest of Canada. It is important to renew your firearms license before it expires.
